

Graduate Chemist Positions – Durban and Abu Dhabi / Dubai (UAE) Offices

An International Environmental Consultancy is seeking a highly motivated graduate chemists to join a growing team of professionals in their Abu Dhabi, Dubai and Durban offices. The company services both national and international projects located in over 25 countries. The position requires a BSc qualification in chemistry. Strong written and verbal communication skills, proficiency with MS Office, and the ability to successfully multi-task are essential. We are looking to fill two positions, namely one in Abu Dhabi or Dubai offices, UAE and the other Durban, RSA. The role entails working on technical aspects of environmental consultancy (air quality and pollution studies, waste water treatment, noise impact assessments). More information on our service offerings is available at www.wkcgroup.com. Please send a CV and location preference (if any) to dawn.levine@wkcgroup.com.
