

GREEN CHEMISTRY POSTGRADUATE SUMMER SCHOOL

3rd -9th of July 2021

Venice, Italy

<https://gssd-foundation.org/ss2022/>

Dear Students,

RE: Green Chemistry Postgraduate Summer School, Venice, 3rd to 9th of July 2022

This letter is sent to students who attended in previous Green Chemistry Summer Schools, Conferences, Workshops, Grants, and Awards, which we are aware of. This letter is particularly addressed to Students who are interested to apply for scholarships to attend this Summer School.

After one year, the scenario about green chemistry and Basic Sciences for Sustainable Development is much better defined. The International Year of Basic Sciences will start next June; we are working at this end with the same spirit from the first of the 14 summer school!

We are pleased to inform you that the Green Sciences for Sustainable Development Foundation (www.gssd-foundation.org), in collaboration with the IUPAC Interdivisional Committee on Green Chemistry for Sustainable Development ICGCSD (<https://iupac.org/body/041>), and the Ca' Foscari University of Venice (www.unive.it), will organize the 14th Edition of the **Post-graduate Summer School on Green Chemistry that will be held in-person and online from the 3rd to 9th of July 2022 in Venice, Italy.** The Summer School not only offers lectures given by outstanding scientists but also provides a platform for postgraduate students to present their research work. Regardless of in-person and online attendance, we warmly invite and encourage you all to apply to obtain the scholarship. Information about application documents and their submission can be found here: <https://gssd-foundation.org/how-to-apply/>

Please note that 30 scholarships for in-person participation in Venice and 100 scholarships for virtual (remote online) participation have been secured last year 2021.

This year 2022 the number of scholarships shall be about 30; however it can be increased by the generous support of our sponsors. Please note that we do not reimburse travel tickets.

Evaluation of the received applications will need some time for the Selection Committee (Members of IUPAC ICGCSD) and for you as well to consider how to come to Venice. On this regard, we would like to take a chance to remind you some of the criteria set for selecting outstanding participants: (i) to be fluent in English, (ii) to be under 35, (iii) your motivation to attend the Summer School and your CV, (iv) a letter of recommendation by your mentor, and (v) a photo of the applicant.

For further information, please refer to the dedicated website at the link (<https://gssd-foundation.org/ss2022/>).

Thank you very much for your interest in this Summer School.

We look forward to receiving your applications and welcoming you to our Summer School regardless of its delivery modality.

Best regards,

The Organizing Committee
14th 2022 Summer School on Green Chemistry

Venice, Italy
February 4, 2022

PS: *We would kindly like to ask all professors, teachers, advisors, mentors, and tutors to share this information with their networks, colleagues, and students. It is highly appreciated. If you have received a similar letter, please ignore this one.*
